

## CONTENTS OF VOLUME 33

### Number 1

- 1 Skin-stiffener interface stresses in tapered composite panel  
YEHUDA VOLPERT & TAMARA GOTTESMAN (Israel)
- 7 Effect of material nonlinearity on buckling and postbuckling of fiber composite laminated plates and cylindrical shells  
S. S. WANG (USA), S. SRINIVASAN (USA), H. T. HU (ROC) & R. HAJALI (USA)
- 17 Continued airworthiness of composite repairs to primary structures for military aircraft  
R. JONES & W. R. SMITH (Australia)
- 27 An improved method for testing unidirectional FRP composites in tension  
M. R. MAHERI (UK)
- 35 Orthotropic rectangular plates under in-plane loading part 1: closed-form solutions for stresses  
N. TAHAN (UK), M. N. PAVLOVIĆ (UK) & M. D. KOTSOVOS (Greece)
- 49 Orthotropic rectangular plates under in-plane loading part 2: application of the series solution by reference to the problem of colinear compression  
N. TAHAN (UK), M. N. PAVLOVIĆ (UK) & M. D. KOTSOVOS (Greece)

### Number 2

- 63 Strengthening of reinforced concrete beams with composite materials: theoretical study  
ANDRÉ PICARD, BRUNO MASSICOTTE & ERIC BOUCHER (Canada)
- 77 Experimental investigation of the dynamic characteristics of carbon fiber epoxy composite thin beams  
KWANG SEOP JEONG, DAI GIL LEE & YOON KEUN KWAK (Korea)
- 87 Fatigue behaviour of mechanically fastened joints in composite materials  
A. LANCIOTTI, L. LAZZERI & M. RAGGI (Italy)
- 95 Stresses around fasteners in composite structures in flexure and effects on fatigue damage initiation part 1: cheese-head bolts  
B. BENCHEKCHOU & R. G. WHITE (UK)
- 109 Stresses around fasteners in composite structures in flexure and effects on fatigue damage initiation part 2: countersunk bolts  
B. BENCHEKCHOU & R. G. WHITE (UK)
- 121 Book Review

### Number 3

- iii Eighth International Conference on Composite Structures Award
- 123 Free vibration of generally layered composite beams using symbolic computations  
Y. TEBOUB & P. HAJELA (USA)

135 Vibrations of an orthotropic shallow spherical shell on a Pasternak foundation  
D. N. PALIWAL, H. KANAGASABAPATHY & K. M. GUPTA (India)

143 Vibration and damping analysis of multilayered conical shells  
K. N. KHATRI & N. T. ASNANI (India)

159 The weaving methods of three-dimensional fabrics of advanced composite materials  
S. CHOU & H.-E. CHEN (Taiwan)

173 Stress analysis of plates with bonded unbalanced laminates  
Y. C. LAM, C. ZHU & M. HELLER (Australia)

191 Book Review

**Number 4**

193 Optimization of laminated composite structures using a bilevel strategy  
C. A. CONCEIÇÃO ANTÓNIO, A. TORRES MARQUES & ALFREDO V. SOEIRO (Portugal)

201 An empirical strain rate-dependent constitutive relationship for glass-fibre reinforced  
epoxy and pure epoxy  
T. E. TAY, H. G. ANG & V. P. W. SHIM (Singapore)

211 Bending of curved sandwich beams  
STURE SMIDT (Sweden)

227 Damage tolerance of thick hybrid composite plate containing a local hemispherical  
damage  
J. AVRASHI, O. DANCYGIER & O. ISHAI (Israel)

237 Large deflection dynamic response of composite laminated plates under in-plane loads  
V. J. PAPAZOGLOU & N. G. TSOUVALIS (Greece)

253 Book Review

255 Announcement

257 Contents of Volume 33
